FOR IMMEDIATE RELEASE

ONE-WAY TRAFFIC CONTROL
ON STATE ROUTE 41
IN KINGS COUNTY

The Department of Transportation (Caltrans) in cooperation with Papich Construction Company, Inc. announces one way traffic control on State Route 41 in Kings County between the State Route 198 interchange and Kettleman City as part of a pavement rehabilitation project. This project is anticipated to be complete in late October.

The following lane closures for next week are as follows:

State Route 41 in Kings County will be reduced to one way traffic control between the State Route 198 interchange and Kettleman City beginning Sunday night, October 11th through Friday morning, October 16th, 2015 between the hours of 7:00 p.m. and 6:00 a.m. each night. Closures may include on and off ramps at the State Route 198/State Route 41 interchange. These closures will be intermittent and will be as needed for pavement operations.

Construction Crews will be conducting one way traffic control at locations within the project area and during the work hours listed above with the use of a pilot car and flagging personnel through the work zone. Commuters are reminded to obey flagging personnel and pay close attention to road construction vehicles and personnel at all times.

Motorists who are delayed at driveways and intersections will be required to wait for pilot car and adhere to all signage in order to safely proceed through the work zone.

During construction operations, delays can last for up to 15 minutes. Commuters are encouraged to avoid these areas during project work hours and use alternate routes if possible. Closures may continue for longer periods of time if necessary, due to delays caused by weather or uncontrollable events that may occur during road construction procedures.
